## CHALLENGE WILL BE ACCEPTED BY STRIKERS

### Indications Point That Way In Russian Troubles.

### GENERAL STRIKE TO BE ORDERED

**Terrible Storm Has Been Raised by the arrest of Head of Workmen's Council—Editors Defy Law Forbidding Discussion of Vital Questions.**

St. Petersburg, Sunday, Dec. 10 (Morning), via Eydtkuhnen, East Prussia, Dec. 11.—There is every indication that the government challenge will be accepted and that within 48 hours a general strike throughout Russia will be ordered. A terrible storm has been raised by the arrest of H. Krusteleff, the head of the committee of the workmen's council, which was followed during the night by the imprisonment of the workmen's council and a number of Socialistic leaders.

"The reaction has come," were the words on every lip, and in the Liberal extremist camp there was only one opinion, namely, that it must be resisted to the bitter end.

**Editors to Defy Press Law.**

The newspaper editors at yesterday evening's meeting decided that the temporary press law forbidding the discussion of vital questions affecting the welfare of the nation violated the principles of freedom of speech and of the press guaranteed by the imperial manifesto and that it must be defied.

**Railroad Employes Strike.**

The employes of the Riga-Orel railroad have declared a strike on account of the declaration of martial law in Livonia, and have sent an appeal to the other roads to join. Last night the railroad men of the Baltic lines decided to follow the example of the Riga-Orel men.

**Anarchy Prevails.**

Absolute anarchy prevails. A messenger who arrived here this morning declared that the streets of Riga were flowing with blood. After a meeting the railroad men of Riga were mowed down by the fire of machine guns and artillery. The railroad men of St. Petersburg resolved that inasmuch as the reaction is gaining force and the government is seeking to retract what was won by the "first pan-Russian strike" the railroad men stand ready to obey the signal for a general strike.

Simultaneously with the arrests here M. Dronshilny and all the members of the union of the employes of the posts and telegraph operators of Moscow, with M. Kokhanowski at their head, were arrested at Moscow.

Interior Minister Durnovo today issued a proclamation notifying the post and telegraph employes that their failure to return to work will be equivalent to their discharge.

**New Archbishop to Be Appointed.**

New Orleans, La., Dec. 12.—High clerics of the diocese of New Orleans are arriving here today in connection with a meeting to be held to certify to Rome worthy candidates for the succession to Archbishop Chappelle, who fell a victim to yellow fever. Bishop Gallagher of Galveston reached here today and will preside over the conference, which will be held in the old Archbishopric beginning Tuesday. Three names will be selected to be forwarded to the congregation of the propaganda, and it may be several months before the appointment is announced from Rome.

**Oglethorpe to Be Honored.**

Brunswick, Ga., Dec. 12.—The Daughters of the American Revolution of Brunswick are making preparations for elaborate ceremonies to celebrate the unveiling of the Oglethorpe monument on the birthday of the great general, which occurs this month. Brunswick is the first city in Georgia, or in the country, to honor in this way the memory of the great soldier and founder of the Empire State of the South.

### CAN PARALYZE SELF AT WILL.

**Police Arrest Beggar Who Has Wonderful Power.**

Atlanta, Dec. 12.—A "paralyzed" man, who has been sitting and begging on the Whitehall street viaduct for the past two weeks, was suddenly healed Saturday night when the police took him in charge. He ran four blocks with a pair of handcuffs on his wrists and a dozen bottles of beer in his pockets.

This wonderful beggar, who gave his name as Robert F. Barris, is possessed of a power to disjoint his wrists and fingers and at the same time to make the muscles of his face writhe with all the contortions of a paralytic.

When acting naturally he is a strong, able-bodied young man; but when he chooses to paralyze himself he becomes a most abject and wretched specimen of humanity.

All he has to do to transform himself from an able-bodied man to a paralytic is to give his hands a wring, twist up his legs into knots and let his jaw drop. His features become those of a babbling idiot, and he is not only paralyzed in his limbs, but he seems scarcely able to talk.

The man is a shrewd, sharp fellow and enjoys telling how he duped the people by playing the role of a paralytic.

He says his home is in Sunny, Tenn., and claims to have been a sailor.

### URGE HIGH PRICES FOR YARN.

**No Necessity of Any Decline From Prices, Says the Secretary.**

Charlotte, N. C., Dec. 12.—Secretary A. C. Hutchinson has sent the following telegram to each member of the Soft Yarn Spinners' association:

"In view of the fact that the market is bare of stocks of hosiery yarns, and that the demand is unprecedented and deliveries hard to get, you are earnestly requested to hold prices. There is no necessity whatever of any decline from the highest prices you have obtained the present season. You can get the price if you will ask for it."

Mr. Hutchinson announces that a meeting of the Soft Yarn Spinners will be called some time during January in Charlotte or Atlanta.

**Torpedo Boats in Charleston.**

Charleston, S. C., Dec. 12.—United States torpedo boats Porter, McDowell, Rodgers, Johnson, Blakely, Courtenay and Dupont has arrived here from Morehead City to join Admiral Dickins' coast defense squadron wintering in this port. They reported severe weather, but suffered no damage or delay. The monitors Arkansas, Florida and Nevada, of the squadron now out on a cruise, will return Monday or Tuesday.

**Engineers to Meet This Week.**

Birmingham, Ala., Dec. 12.—The annual convention of the Engineering Association of the South will be held in Birmingham next Friday and Saturday, Dec. 15 and 16. Among those invited to deliver addresses are E. W. Barrett, editor of The Age-Herald; General Rufus N. Rhodes, second vice-president of the Associated Press; Mayor Ward and Hunter McDonald, chief engineer of the Nashville, Chattanooga and St. Louis railroad.

**Negroes Burn to Death.**

Eatonton, Ga. Dec. 12.—Sunday morning about day the old James L. Reid mansion, just 2 miles from the courthouse, was completely consumed by fire with all its contents. The building had been vacant for a year, but at the time of the fire Robert Reid and his wife and a half brother of Robert's occupied the premises. The latter, John Coleman, narrowly escaped, but Robert Reid and his wife were consumed in the flames.

**Alleged Crook Arrested.**

Savannah, Ga., Dec. 12.—Detectives Saturday afternoon arrested San McGowan for the "rolling" of T. O. Ogaxhara, a stock man of Sherlock, Tenn., in a west side saloon. Mr. Ogaxhara lost $1,500 by having his money belt cut open while he was either drunk or drugged. The detectives state that they have evidence upon which they expect to convict McGowan.

## "SEND US HELP FROM ANYWHERE"

### Stated Message From Leaking Lightship.

### WIRELESS SYSTEM IS CRIPPLED

**So Rapidly Did Water Come In That, Although Pumps Were Kept Busy, the Fire Rooms Were Flooded and Fire Extinguished.**

Newport, R. I., Dec. 12.—A half finished message sent just before the batteries are supposed to have become exhausted, came here by wireless from the Nantucket lightship early today, asking for "Help from anywhere." The message was timed at 2 a. m., and was as follows:

"Nantucket shoals. Lightship in distress. Send help from anywhere."

Here the message broke off.

At the lightship's design includes water tight compartments into serve her in just such cases of stress as she is now in, the lighthouse officials declare that there will be little difficulty on the part of her crew afloat until aid can reach her. The lighthouse tender Azalea, which left New Bedford at 7:30 o'clock last night, should reach the vicinity of the lightship during this afternoon.

The Hist left the naval training station, under orders to make the best possible speed to the lightship.

The distance she will have to cover is about 97 miles. The leak in the lightship's hull, while not definitely located, according to the latest message was apparently just above the fire-room plates. So rapidly did the water come in, although the pumps were kept constantly at work, that late yesterday afternoon the fire room was flooded and the fires had been extinguished. Wireless communication then ceased and it was supposed that nothing further would be heard directly from the vessel, as the dynamos probably had given out.

Early today, however, came to grief an apparently unfinished message, again asking for aid. This time it is thought the wireless system must have become completely crippled. The wind shifted to northwest late yesterday and this had the effect of causing the great seas to moderate considerably, so that less anxiety was felt here this forenoon for the lightship's safety.

On board the lightship are Captain Jorgensen of Dennis, Mass., commanding, two engineers, three naval electricians operating the wireless apparatus and eight seamen.

**Engineer Dead; Conductor Injured.**

LaGrange, Ga., Dec. 12.—Quite a serious accident happened Saturday morning on the grading which is being done through this city for the Atlanta, Birmingham and Atlantic railroad. The contractors for grading employ two small dummy engines to haul the dump cars, which are loaded by the steam shovel. One of these dummy engines turned over a 25-foot embankment and rolled down the embankment. The engineer, Pomp Foster, was caught under the dummy engine and badly scalded, besides having a rib broken, from which he died Sunday. The conductor, Henry Taylor, escaped with less injuries, though both of his ankles were broken.

**Failing Train Injures Many.**

Kite, Ga., Dec. 12.—While a train from Wadley Saturday afternoon at 4:40 o'clock was crossing Little Ohoopa river, the coach and five flat cars went in with all passengers. Mack Shenley and Gus Sharp are seriously hurt, if not fatally. Several negroes, unknown, were also hurt.

**To Celebrate Anniversary.**

New York, Dec. 12.—It is announced that the twenty-fifth anniversary of the founding of the Tuskegee Normal and Industrial institute will be celebrated in April, 1906. President Eliot, of Harvard university, will be one of the principal speakers.

### CONSTABLE KILLED AT DANCE.

**Requested Young Men to Fight Fair, When One Shoots Him.**

Statham, Ga., Dec. 12.—John W. Haynie of this place was killed Saturday night about 9 o'clock by Coke Hunter at a dance at J. F. Daniel's, about 5 miles from Statham. From reports received of the affair, it seems that Hunter and Will Edgar were fighting, when Haynie requested Edgar, his friend, to fight Hunter fairly, which request was complied with. Hunter then turned and shot Haynie, killing him almost instantly. Mr. Haynie was a constable of this district. All of the parties mentioned are young men.

Hunter ran off immediately after committing the crime and is now at large. Hunter is about 6 feet high, weighs about 165 pounds, age about 27, slender built, red complexion, wears his hat pulled down over his eyes and has all the appearances of a plain countryman. Before shooting Haynie Hunter cut Edgar several gashes, though the wounds are not serious. A reward for Hunter's arrest will probably be offered.

### YOUTHFUL MURDERER IN JAIL.

**Boy of Eleven Slew His Brother, Who Was Aged Only Eight.**

Hartwell, Ga., Dec. 12.—Sheriff Monroe Kidd now has in his custody the youngest prisoner that has ever been placed behind the walls of Hart county jail since his experience as the sheriff of Hart county.

Lonnie Lewis, a white lad 11 years old, who resides with his parents on the plantation of John B. Gaines, in lower Hart county, slew his brother, Hoyt Lewis, the morning after Thanksgiving. The boy killed was only 8 years old. The killing was done with a breech-loading shotgun and the load entered the boy's head just above the right ear, taking off a section of the head, making a frightful wound. Young Lewis was arrested and has since been confined in jail. He does not seem to appreciate the enormity of the crime which has been lodged against him by the officers of the law.

It is understood that he will claim it was an accident. In answer to a question the boy replied that he would not stay in jail long, as "they were going to send him out yonder."

### RAWLINGS CARRIED TO CAMP.

**Wants Sentence Changed So He May Die With Relatives.**

Valdosta, Ga., Dec. 12.—Leonard Rawlings, who was recently sentenced by Judge Mitchell to the penitentiary for life for his complicity in the murder of the Carter children, was Sunday carried to a state convict camp at Babcock, Ga.

The parting between the young man and his mother and sister at the railway station was very affecting. Young Rawlings has all along maintained that he would rather be hanged than to serve a life sentence and requested one of his attorneys to try and have his sentence changed so that he might be executed with his father and brothers.

**Investigating Home Life.**

New York, Dec. 12.—An investigation of the Home Life Insurance company of New York was taken up by the legislative insurance investigating committee today. The first witness called was George E. Ide, president of that company. Mr. Ide said in making investments his company gives no commissions to brokers, but he thought some of the officials of his company may have received commissions on their own policies. He said his company is paying a pension of $1,000 a year to a clerk who was employed since the foundation of the company and is now unable to work.

**Strike on Atlantic and Birmingham.**

Fitzgerald, Ga., Dec. 12.—This morning at 12 o'clock engineers and firemen of the Atlantic and Birmingham railroad went on strike, the employes demanding higher wages and shorter hours. It is hard to say at this hour how the matter will terminate. It is the general opinion, however, that the railroad company will accede to their demands.

## FEDERAL CONTROL OVER INSURANCE

### Novel Method Proposed in Bill Introduced.

### PUBLICITY IS THING REQUIRED

**Authorizes Department Commerce and Labor to Require Full Statements From Insurance Companies Doing Business in Jurisdiction.**

Washington, Dec. 12.—A novel method of seeking federal control over insurance is proposed in a bill introduced today by Representative Fred Landis of Indiana. The bill cites that congress has exclusive jurisdiction over the District of Columbia, the territories and insular possession of the United States, in consequence of which authority is given the department of commerce and labor to require full statements from all insurance companies doing business within such jurisdiction. He states that publicity is the one thing required and that no insurance company can afford to quit.

**Lively Tilt in the House.**

A lively tilt occurred in the house just before adjournment between Lamar of Florida and the minority leader, Mr. Williams, regarding committee assignments. Mr. Lamar sought to discuss the matter, but Mr. Williams objected in the interest of Democratic harmony, effectiveness and good will. He was at once challenged to call a Democratic caucus for tomorrow, but declined to commit himself on the ground that the house was no place for Democrats to wash thier linen for the amusement of Republicans. Mr. Lamar was taken off the committee on interstate and foreign commerce.

**Senate Receives Emergency Bill.**

When the senate convened today a message was received from the house transmitting the emergency bill appropriating $11,000,000 to aid in the construction of the Panama canal.

### THINK THEY HAVE BIG CATCH.

**Police Confident They Have Broken Up Counterfeit Gang.**

Los Angeles, Cal., Dec. 12.—In the arrest yesterday of Frank Weller, alias Wilder, and Joseph Castro, alias Lawrence, by United States Secret Service Agent Cronin and officers from the Central Police station, it is believed that one of the smoothest gangs of counterfeiters that has operated on the Pacific coast for years was broken up. With the prisoners a quantity of paraphernalia was confiscated and a sufficient evidence is said to be possessed by the officers to permit of a prosecution of the charge. The men are alleged to have been operating in Los Angeles, San Francisco, Oakland and a number of California cities for several months past, flooding the coast with bogus bills. They have been under surveillance for some time.

The raising of $2 bills to the denomination of $5 and $10 is said to have been the principal occupation of the counterfeiters.

**Begins Long Term in Pen.**

Buffalo, N. Y., Dec. 12.—Alonzo J. Whiteman, convicted of defrauding the Fidelity Trust company of this city by means of forged and raised paper was taken to Auburn prison today to begin a term of eight years and five months.

**Congratulates Mother of Triplets.**

Trenton, N. J., Dec. 12.—At the home in this city of Edward Morris yesterday triplet babies, two boys and a girl, were christened and a congratulatory letter from President Roosevelt was received.

**Political Economist Dead.**

Boston, Dec. 12.—Edward Atkinson, the well known social and political economist of this city, died suddenly today after an attack of acute indigestion affecting the heart. He was 78 years old.

# THE CONVICTS WERE TAKEN OFF TO CAMP

## There Were Twenty Convicted Men for State and County.

### HENRY AND WATSON DETAINED

**They Will be Held Pending Decision of Appeal to Supreme Court, in Which Attorneys Have Forty Days to Prepare Briefs in Cases.**

Scenes about the court house corridors Monday reminded one of the four-weeks' session of the fall term of the circuit court, which attracted large crowds, and which adjourned Saturday night. The occasion was the presence of thirteen county prisoners and seven unfortunates convicted at the fall term of the court and sentenced to State prison.

The convicted prisoners were brought from the jail to the court house, a distance of six blocks, just before noon, preparatory to the departure of the noon trains for their respective assignments. The State prisoners were chained in one "bunch" under command of State Transfer Agent T. E. Bridges of Ocala, to which place they will be taken and distributed to various lessees of State convicts, while the prisoners for the Chase naval stores farm, Fairbanks, were in charge of Superintendent D. E. Godwin of the farm. They were also bound in chains, and as the procession advanced it attracted a large number of curious people of all ages and sizes, which followed it to the temple of justice.

All the prisoners with the exception of one, A. J. Whittey, a locomotive engineer who was convicted of larceny and sentenced to eighteen months in State prison, were colored. Whittey, who was formerly an engineer on the Seaboard Air Line, was arrested for the larceny of a suit of clothes from a room-mate at Waldo.

The State prisoners are as follows: State vs. Robert Cook, rape, State prison for life; State vs. A. J. Whittey, larceny, eighteen months; State vs. A. Bryant, larceny, five years; State vs. A. Bryant, larceny, (second count) five years; State vs. John H. Green, murder, life; State vs. Charley Williams, breaking and entering, five years.

James Henry and Fletcher Watson, convicted of murder in the first degree and recommended to mercy, were detained in prison here, pending the motions for appeal, in which the attorneys have forty days to prepare briefs, etc.

Those sentenced to the county gang were: State vs. J. Shedd, selling liquor in dry county, $200 or six months; State vs. Judge Knight, selling liquor in dry county, $500 or one year; State vs. Dan Edwards, selling liquor in dry county, three counts, first count $500 or one year, second and third counts $1 and costs in each count; State vs. Will Brown, selling liquor in dry county, $25 and costs or sixty days; State vs. Jerry Carter, selling liquor in dry county, $100 or four months; State vs. Andrew McDuffie, selling liquor in dry county, $100 or four months; State vs. John Holmes, selling liquor in dry county, $50 or sixty days; State vs. S. T. Moulton, selling liquor in dry county, $50 or sixty days; State vs. James McNeal, selling liquor in dry county, $200 or six months; State vs. Charley Roberts, selling liquor in dry county, two counts, first count $500 or one year, second count $1 and costs; State vs. Charlton Washington, selling liquor in dry county, $25 or sixty days; State vs. Dorsey Holmes, selling liquor in dry county, $50 or four months.

It is understood, however, that the greater part of the time has been devoted to the consideration of various bids according to the plans and specifications of Architect W. A. Edwards of Columbia, S. C., who is with the Board.

**A Guaranteed Cure For Piles.**

## A QUESTION OF COST.

In any number of stores you'll see various preparations of cod liver oil at as many different prices. You'll wonder, perhaps, why Scott's Emulsion costs more than some other kind in as large a bottle. Hearing only one side of the question you may be led into buying the "just as good as Scott's" at the lower price. That's false economy. Scott's Emulsion costs more because its more expensive to make. Every ingredient is tested and guaranteed of the purest quality. No adulteration, no shaving of quality. There's no economy in bargain medicine. If you can afford to experiment with your health, substitutes may satisfy you. We take it, however, that you want a pure preparation, a reliable remedy and something that's going to help you. That's what you get in Scott's Emulsion. Thirty years the standard.

SCOTT & BOWNE, 409 Pearl St., New York.

Vacher, 157 Osgood street, Chicago, writes: "My wife had a severe case of lagrippe three years ago and it left her with a terrible cough. R. R. Ormand of Hawthorn, one of the most successful farmers in that section, was a visitor to the county capital yesterday. Mr. Ormand brought a quantity of fine pork to cold storage and before the end of the season expects to have plenty more.

John W. Martin of Jacksonville, representing Leo Frank, harness and saddlery, Savannah, Ga., is in the city. Mr. Martin, with one exception, is probably the most youthful traveling salesman in Florida, but his success will "equal up" with those of much wider experience.

Attention is directed to the change of advertisement of Miss Nora Norton, ladies' fancy goods and novelties. A jolly theatre party of Waldo folks, numbering about fourteen, came down on the Seaboard Air Line Monday evening to witness the performance of the Barlow Minstrels. It was a good-natured, clever crowd, and one which seemed to enjoy the show immensely. When it comes to doing things up-to-date Waldo is "Johnny on the Spot."

Rev. Oliver Faus, a member of the Florida Methodist Conference, who has been stationed at Bayard, St. Johns county, for the past year, has been transferred to Sebastian, Indian River. Mr. Faus is a brother of T. J. Faus, one of the employes of The Sun composing rooms, and has visited him here. During his stay he made many friends.

Robert McCarroll of Jacksonville, the inventor of the famous McCarroll stone, an excellent imitation of granite and said to be just as durable, is in the city, having come to attend the meeting of the State Board of Control. The new Holy Trinity Episcopal Church, now in course of erection in Gainesville, is being constructed of this material, which is very handsome.

The congregation of Seventh Day Adventists, which is strongest at North Gainesville at present, are holding a week of prayer at the various homes of that suburb, which they report as religiously most refreshing. The congregation recently purchased a desirable lot in a shady grove in North Gainesville, and will soon begin the erection of a small but substantial and neat church.

H. C. Stevens, the progressive jeweler of High Springs, was among the business visitors to this city Monday. Mr. Stevens is division watch inspector for the Atlantic Coast Line, and his duties take him away from High Springs to some extent. He has a handsome store in that town, and a stock which would do credit to a place much larger. He is one of the merchants who deserve success.

Miss Alice G. Spence, a missionary in India in the employ of the Woman's Home and Foreign Mission Society of the Adventist denomination, will speak to the people in the Adventist church, East Main street, N, next Thursday evening at 7:30 o'clock. A general invitation is extended to the public to come and enjoy the lecture of this interesting and inspiring speaker. Admission free. Miss Spence will lecture upon "The Mission Work in India."

## CONSUMPTION

Is it Inherited and Can it be Cured?

Many of our leading scientists are spending much time in the study of this great white plague and find that more cases are caused by neglect than are hereditary.

Neglected coughs and colds gradually weaken the whole pulmonary system and before the people realize it there is a diseased spot in one lung, spitting blood soon follows and eventually a collapse.

Our local druggist, W. M. Johnson, says there is nothing known to medicine equal to their cod liver oil preparation, Vinol, for consumption, especially in its early stages, and while they do not guarantee it will cure real consumption they have many letters from people who were given up to die and who declare they were saved by Vinol.

Among others Mrs J. G. Brown of Anderson, Ind., writes: "Our daughter, Mary, was in consumption, and given up to die by our family physician. Vinol completely restored her to health and words fail to express our gratitude for this valuable cod liver oil preparation."

Mr. Joseph Dennis of Winslow, Me., says: "Vinol cured my son of consumption, after he had been given up."

We believe Vinol is the most perfect cod liver preparation known, as it contains no grease to clog the system, upset the stomach and retard its work, yet it does contain all the curative, medicinal and body-building elements of cod liver oil, actually taken from fresh cods' livers and is acceptable to the weakest stomach. It is worth trying on our guarantee. W. M. Johnson, Druggist.

### A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of piles. "I can truthfully say," writes Harry Colson of Maconville, Ia., "that for blind, bleeding, itching and protruding piles, Bucklen's Arnica Salve is the best cure made." Also best for cuts, burns and injuries. 25c at all druggists.

### In Mayor's Court.

Tuesday's session of the mayor's court was one of the heaviest for several months, a number of offenders of the municipal laws of various kinds having been arraigned. The fines ranged from the mere sentence of costs to $2.50 and costs, according to the evidence and the gravity of offense.

### TUESDAY NIGHT'S FIRE.

Quick Response of the Department Saved Valuable Property.

An alarm of fire was turned in from Box 62 at 7:35 o'clock Tuesday night which summoned the department to the home of Dr. J. W. Mc[illegible], corner North Oak avenue and East Orange street. The department responded with its usual promptness, being out of the house upon the second sound of the gong, which probably prevented a serious loss, as the fire would have secured a good headway in a few more moments. The origin was supposed to be from a defective flue. The fire started in a room on the second floor. The damage will not exceed $25.

No water was turned on, the flames having been extinguished by the chemical apparatus.

Notwithstanding that the department made excellent time, some confusion was caused in the turning in of the alarm from a box five blocks away from the scene of the fire. Chief O'Neill requests The Sun to suggest that in future, when the party cannot turn in the nearest alarm for any reason, the proper course to pursue will be to telephone the central fire station.

### COUNTY JUDGE'S COURT.

Will Williams, Arraigned for Embezzlement, Was Discharged.

Monday for the first time in several weeks, or since the convening of the circuit court, His Honor County Judge Mason had a case for trial, and this resulted in the discharge of the defendant, William Williams, who was arrested and arraigned upon a charge of embezzlement.

The complainant in this case was one Lee Wood. It appeared that Wood and the defendant had planted a crop of cotton together near Alachua; and Wood alleged that Williams had harvested and marketed the staple, retaining all the proceeds himself and refusing to turn over to the complainant his share.

After hearing the evidence in the preliminary, Judge Mason decided that there was not sufficient proof to warrant holding the defendant, and he was released.

The parties interested being well known colored people, the trial attracted a large number of people of their race from the Alachua section.

Attorney Benj. T. Ellis represented the prosecution, while Attorney J. M. Rivers appeared for the defense.

### HUMPTY DUMPTY.

The Funniest Show Ever Seen in the City of Gainesville.

"Humpty Dumpty" is coming to town with all the well remembered environments, more resplendent and more attractive than ever. The company will be at the opera house Saturday night. George H. Adams, the famous pantomimist and clown, will be in the title role, and will be assisted by a cohort of pretty ballet girls, a full chorus of trained voices and clever comedians. Vaudeville comic opera, comedy and pantomime, will be interspersed throughout the plot, while the latest films of the most recent moving pictures and illustrated songs will round out a performance which for novelty and extravagant scenic and electric effects cannot be surpassed. The great mystery act, "Eve, or the Birth of Woman," will be the star feature of the engagement.

Advance sale of seats will take place at W. W. Avera's.

### Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eleminate the poisons from the blood. Unless they do this good health is impossible. J. W. McCollum & Co.

### Alleged Robber Escapes From Jail.

Birmingham, Ala., Dec. 13.—A special from Meridian, Miss., says A. W. Gilbert, charged with robbing passengers on a sleeping car, escaped from jail last night by crawling through the window of his cell and using his blankets to let himself down from the roof to the ground. No trace of the fugitive has been found.

The glorious climate of Florida has been at its best for the past nine months at least. There could be nothing better.

The schools of West Palm Beach are said to be in the best possible condition. They evidently have not felt the blight of the Buckman school law.

The wheat prospects show a favorable condition for the winter crop, which it is reported for December 1st was 94.1. There is also an increase in acreage over the fall of 1904.

The girls at the Female College in Tallahassee are sending some very complimentary letters to their home papers. We are pleased to learn that the college is getting along so nicely.

The people of Manatee county want it understood that they were not treated fair at the State Fair. The prize they won is said to have gone to Baker county. The matter will no doubt be adjusted.

The reason Alachua county didn't get the first prize at the State Fair in Tampa is because we just didn't have the best display. But it wasn't because we could not make the best display. We will show them next time.

The White Springs Herald sends out a fine Christmas edition with a handsome illuminated cover, also the usual amount of Christmas reading and many advertisements from the enterprising business men of that thriving town.

Judging from the prices paid for horses recently, the autos have not yet driven them out of the market. New York is still paying good prices for them, Watercress, a 16-year-old stallion, having sold a few days ago for $71,000.

The Live Oak Daily Democrat has its new Meihle press in operation and it works to perfection. The Democrat looks as bright as it did the day before the fire and is edited as carefully and with as much ability as any paper in the State.

Gainesville now has a lady dentist, and the hypnotic qualities of her divine sex are doubtless expected to make a fellow forget his misery when she is yanking out his teeth and jabbing into his nerves.—Live Oak Daily Democrat.

The Department of Commerce and Labor report of cotton ginning for December 8th shows Sea Island cotton distributed as follows: Florida, 31,584 bales; Georgia, 41,692; South Carolina, 8,927. There is no report for 1904, so a comparative statement cannot be made.

Midshipman Meriwether was forced to fight a physically better man than himself at the Annapolis Academy and because he got in a chance blow that did his adversary up, he was expelled. It is a disgrace to allow such proceedings and Meriwether should have been allowed to remain at the academy.

## NOTED MINERAL SPRING.

Among the many attractions for the affected as well as those who would keep their health in the best condition, to be found in Alachua county, is the mineral spring near Grove Park. The reason the curative properties of this spring have not come more forcibly before the people is the fact that the title to the land on which it is located has been in dispute.

Recently, however, it has come into the possession of Capt. J. L. Brown and an effort will be made to make improvements and erect a sanitarium so that the afflicted may be treated. The property has upwards of 1,000 acres of hammock and pine land and it is expected a stock company will be formed to push the enterprise.

The springs have a flow of 150,000 gallons of water per hour, which are impregnated with remarkable curative properties, it being known as a magnesia spring. Besides the medicinal waters, there are other springs of cool water that are always pure and refreshing. Magnesia Spring is nestled in a shady nook, which could be made a most charming retreat. People who have tested the water declare it to be a cure for stomach and kidney troubles and many have found relief from drinking the water.

Captain Brown has his residence on the high rolling lands of this section, and he has lots platted out for a town site, which he has named Magnesia Springs, being a lovely location for the erection of a sanitarium, boarding houses and a hotel.

In speaking of the Magnesia Spring Captain Brown says that in his twenty odd years' of residence there he has not had a case of malaria, and that this section of Alachua county appears to be clear of that malady. He says that in 1881 he first visited Florida for his health and stopped at Gainesville, where he met Col. Fen Taylor, who directed him to Magnesia Springs, which water cured him of indigestion and all malarial troubles that he brought with him from Indiana.

Since that time hundreds of people have tested the efficacy of these waters, which have been drank by them with wonderful results, and with facilities for bathing and accommodations for the people who would go there, there is no doubt of the success of such a resort.

There is good fishing near at hand, the invigorating pine forests would add to the attractiveness of the spot, and there would be no doubt of the fame of Magnesia Springs as a resort.

## HE LOVES US.

Brother John Caldwell of The Jasper News, who has a fixed habit of expressing decided opinions in vigorous English of unmistakable meaning, says that it is all a mistake to suppose that he is "sour, cross or ill-natured" and he "declares on his sacred honor that there is not a newspaper man or woman in the world against whom he entertains the least malice, grudge or ill-will." This is the right spirit in which an editor should do his work and only in this spirit can he do it with the highest effectiveness. Hereafter when the fur flies we shall understand that Bro. Caldwell chastens us because he loves us, and while he may hate our sentiments he wouldn't hurt us for the world.—Live Oak Daily Democrat.

The Miami Daily Metropolis was two years old December 8th, and it is one of the best in the State. It is carefully edited and deserves the excellent patronage given it by the progressive business men of that up-to-date city. There is some pleasure in conducting a paper in a busy town like Miami.

It is thought that the chemicals of the cargo of the wrecked Spanish steamer Alicia, now resting on Ajax Reef, south of Miami, has caused the death of many fish in the water at that point. The blowing up of the wreck has let the substance out into the water.

## INDUSTRIAL EDITION.

We are in receipt of the Industrial Edition of The Gainesville Sun. This edition is one that reflects great credit on the publication and is typical of the progressive spirit of the city in which it is published.—Polk County Record.

A copy of the Industrial Edition of The Gainesville Sun is on the desk before us. The copy is handsome, is filled with valuable information relative to Alachua county and The Sun has done itself proud in this effort.—The Apalachicola Times.

The Industrial Edition recently issued by The Gainesville Sun was an excellent paper. Such enterprise as this as displayed by The Sun in behalf of Gainesville and Alachua county is worthy of much praise throughout the entire State. The Sun is a progressive paper. Long may she shine.—Lake Butler Star.

The Industrial Edition of The Gainesville Sun made its promising debut in this city last Sunday. It contains 32 pages of good, live and illustrated reading matter of season, taste and debonair. The mechanical work is the most skilled and prettiest ever issued from that city. To say the least of it, it is a colossal aggregation and well worth the price—10 cents.—High Springs Hornet.

The Industrial Edition of The Gainesville Sun has reached our table and we find it the best edition of its kind yet published in Florida this year. It is full of interesting facts and information concerning Gainesville and parts of Alachua county and is illustrated with numerous half-tones of interesting views, public buildings and portraits of the prominent citizens. It will doubtless be of much benefit to Alachua county, as such editions are when gotten up in a creditable manner.—St. Lucie Tribune.

Jacksonville will have five murder trials on tap this week, in which three whites and two blacks figure as the star performers.

W. B. Talley of Lakeland has secured the contract for the erection of the new $20,000 school house at Orlando.

Quincy will now commence the agitation of a sewerage system.

An application has been made to start the seventh saloon in Palatka by three colored men.

A man living at DeFuniak Springs killed a bald eagle that measured seven feet from tip to tip of his wings.

Orange county is laying down rules for legislative candidates, the antehog men being at the bottom of it all.

The Suwannee County Cotton Association has elected A. W. Mizelle as president and R. R. Brown, secretary.

Jacksonville is becoming noted as a shipping point, while many vessels go there with cargoes for points in Georgia.

Miss Mossie Turner of Lakeland was made queen of the carnival held in that city last week. The mayor did the crowning act.

Branford's free ferry across the Suwannee river is a great benefit to the business of that place. They should have a free bridge.

E. Whitmire, a hackman at Milton, was shot down by another hack driver supposed to be George Allen. They quarrelled over a passenger.

The grand jury of Escambia county has indicted Tom Grice and L. B. Bingham for murder in the first degree. Both are colored men.

Three of the boilers in R. L. Dowling's mill at Live Oak exploded on Saturday morning. No one was hurt and the cause of the explosion unknown.

The cotton growers of Columbia county met at Lake City on Saturday and formed an association with J. W. Hatcher, president, and Thos. J Appleyard, secretary.

John Malum of Eustis went out and chopped some wood; when his wife went in search of him she found him dead. This will be a warning to men who insist on getting the wood.

A large dry dock at Pensacola is being urged by Rear Admiral W. L Capps, chief conductor of the navy. It would be large enough to accommodate any of the battleships in the navy.

G. A. Angevine, who is growing oranges and grapefruit on Lake Worth, near West Palm Beach, is showing to the people of Florida that muck land will grow these fruits as well as any other.

Charles Follette of Orange City awoke on Friday morning and found his wife dead in bed beside him. Follette is nearly blind and quite deaf and his latest affliction seams so much the more pitiful.

The S. A. L. and the Alafia, Manatee & Gulf railroads will both make surveys to Boca Grande, but as they have made similar feints in the past, some of the Punta Gorda people, from which place there is talk of running the line, are not much alarmed.

Governor N. B. Broward on last Saturday night removed J. W. Perkins from the office of county solicitor of Volusia county, because he had neglected his duty in prosecuting certain violators of the law. For some time past efforts, it is alleged, had been made to get Mr. Perkins to file information against certain violators of the election law in Orange City, which he declined to do. Recently the grand jury of Volusia county found indictments against those charged with these violations, and this was considered a rebuke to the county solicitor, as the grand jury does not take action in such matters in counties where there is a criminal court of record unless the solicitor fails to do his duty and file information. J. Hall Brumsey has been appointed to fill the office.

The packers have claimed that they were promised immunity by Commissioner of Corporations Garfield, and this the United States district attorney denies.

### The Requisite of Beauty.

The first requisite of beauty is a clear complexion. Orino Laxative Fruit Syrup clears a sallow, blotched complexion, as it stimulates the liver and bowels, and the eyes become bright and clear. You owe it to your friends to take it if your complexion is bad. Orino Laxative Fruit Syrup does not nauseate or gripe and it is very pleasant to take. Refuse substitutes. J. W. McCollum & Company.

### Failed.

All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." J. W. McCollum & Company.

## ATKINSON SUCCEEDS CANDLER.

**Well Known Brunswick Attorney Appointed to Supreme Court Bench.**

Atlanta, Dec. 12.—Associate Justice John S. Candler Saturday tendered to Governor Terrell his resignation as a member of the supreme bench, to take effect January 15 next.

Shortly following the receipt of the resignation, which was accepted with much regret, Governor Terrell announced the appointment of Hon. Samuel C. Atkinson of Brunswick as associate justice of the supreme court to succeed Justice Candler.

When Governor Terrell determined to appoint Judge Atkinson he called him up by long distance telephone and so notified him. Judge Atkinson thanked the governor warmly for the appointment and stated that he would accept it.

The new supreme court justice is one of Georgia's best known practicing lawyers. He is a graduate of the State university of the class of 1884, and has been practicing law in Brunswick with much success since 1885. He is a brother of Judge Spencer R. Atkinson, a former justice of the supreme court and late railroad commissioner.

Judge Atkinson was judge of the city court of Brunswick for a term of four years under the administration of Governor W. Y. Atkinson. This is the only official position which he has ever held, but he filled it ably and acceptably to those with whom he had to deal.

At the time Governor Terrell tendered an appointment to the supreme bench to the late Hon. Henry G. Turner of Quitman the members of the bar of Brunswick and surrounding counties indorsed Judge Atkinson for this position, and urged his appointment in the event that Judge Turner did not accept.

## WHITE MAN KILLED BY NEGRO.

Daniel received one bullet in the mouth and one in the stomach, the negro's aim being unerring. He only fired two shots and then turned and fled. Mr. Daniel was apparently unarmed and at the mercy of his assailant.

The killing was caused, it is understood, on account of the fact that the negro owed Mr. Daniel a small sum, and the latter asked Strickland to make a settlement. A dispute arose and after a few heated words the negro pulled his pistol and began shooting.

Strickland made his escape.

**Farmer Used Ax on Family and Then Shoots Himself.**

When entering the house Mr. Coulter was found lying on the floor, while in the other parts of the house were found the dead bodies of his wife and daughter and in the barn the 11-year-old son dying.

Apparently, the son was attacked first with an ax and the father went into the house, shot his wife and daughter and retired to his bed room and turned the weapon on himself.

He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician, but before he could arrive another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, December 1st, 1901." The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good: second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

## AN EQUINE MYSTERY.

**What Became of the Ancient Horses of This Continent.**

Though vastly more is known of the ancient history of the horse than of our own origin and descent, there is one mystery connected with equine annals that bids fair never to be solved. It has to do with the cause of the total disappearance of the quadruped from America a few thousand years ago, where previously it had roamed in countless numbers not only over the whole of the United States, but all the way from Patagonia to Alaska.

When Columbus landed he found no horses. The earliest Spanish conquerors when they came saw none. In fact, the Indians regarded with affright the horses which the Spaniards brought. Not only had they never beheld such brutes, but their traditions gave no account of anything in the least resembling them. All of the horses in America today have been bred from European stock.

What became of the ancient American horses whose bones are dug up in great quantities in various parts of the United States, especially in central Oregon and along the banks of the Niobrara river in Nebraska? To what cause did they owe their extinction? Nobody can even offer a plausible guess. They were too numerous and too swift to be exterminated by savage hunters. The glacial epoch could hardly have frozen them out, for the great ice sheet extended only as far south as Philadelphia and St. Louis.

Nevertheless they vanished utterly, leaving behind them, however, a wonderfully complete record of their family history. In the Bad Lands of the west, in the Niobrara rocks and elsewhere their skeletons, scattered through strata representing successive epochs, tell the story of the development of the horse from an animal no bigger than a cat to a creature much like the modern equine quadruped. It is an object lesson in evolution, singularly complete, the fossil remains thus far discovered illustrating no fewer than twelve stages in the life progress of man's four footed friend and helper.

The evidence thus obtained shows that the horse had its beginning about 3,000,000 years ago, which implies, of course, that it is a far more ancient animal than man. About the size of a cat, with teeth like a monkey's, four toes on each forefoot and three on each hind foot, it dwelt in the dense forests which covered all of this part of the world in that epoch when the gulf of Mexico stretched far up the valley of the Mississippi and the climate of North America was moist and tropical.

Then, as its successor, came a horse with three toes on each foot, followed, after a great lapse of time, by the one toed horses, which in the ice age were contemporary with man. It is probable that these later horses, which were much like the modern, were striped; but, whether this be true or not, it is certain that they spread over all parts of the world except Australia. In Europe, Asia and Africa they survived, to become the ancestors of the horses of today, but in America they disappeared altogether. The reason why will probably never be explained. It is a puzzle that is likely to remain unsolved to the end of time.—New York Herald.

**Printing Chinese Newspapers.**

In an ordinary newspaper in China they have at least 4,000 different characters in type. The type is arranged in boxes and placed in a semicircle from the floor to as high as an ordinary individual can reach. The men are on their feet all the time, for every few minutes they may have to go to the entire length of the room to find a character in some other circle, and the typos are continually running around each other. It made one think of a walking match. Though they keep 4,000 characters made up, still there is a continual demand for some special one from the workmen, and this order is given to some men, who take a plank and with a few digs of a sharp steel turn out the desired character. The proprietors of one of the papers stated that very few of his typesetters could read; that they simply set the matter from copy without any idea of what the matter was about. The best papers will not take an advertisement by the inch or line, but at so much per character an insertion, and want the money in advance. They will not, as a rule, give any position, but place each advertisement as it comes in to them in regular rotation after the reading matter, so gradually you are moved from one place to another as new advertisements appear.

**The Drama.**

The drama embraces and applies all the beauties and decorations of poetry. The sister arts attend and adorn her; painting, architecture and music are her handmaidens; the costliest lights of a people's intellects burn at her show; all ages welcome her.—Charlotte Cushman.

**Making It Easy.**

George (nervously)—I'd like ever so much to marry you, Kitty, but I don't know how to propose. Kitty (promptly and practically)—That's all right, George. You've finished with me; now go to papa.

## OLD TRADE TRICKS.

**How They Were Punished Five or Six Hundred Years Ago.**

Cheating in trade is no new thing. It was practiced in the fourteenth century as well as in the twentieth. English town records contain many cases of summary jurisdiction in matters affecting the price, weight and quality of food, clothing and other things.

I cull a few from the archives of the city of London. In 1348 proceedings were taken against a butcher for selling putrid meat. Three reasons were alleged against this conduct at his trial before the mayor and aldermen. It was deceitful and dishonest; dangerous to the public health. It brought scandal and disgrace upon the mayor, corporation and all the inhabitants of the city that a Londoner should behave so. After the investigation he was found guilty and condemned to be taken, with his bad meat carried in front of him, to the pillory in Cornhill, and while he stood therein the carrion he had tried to sell was burned under his nose.

It is well known that the pillory was an instrument in which the culprit was fixed, incapable of movement, exposed to the contempt of the people. The offense of the culprit was always publicly proclaimed, and, according to the views of the spectators, the punishment might be severe or otherwise. If they disliked the offense of the offender their contempt would take the proverbial and forcible form of rotten eggs and dead cats, and the trader would make a closer acquaintance with his own wares, both raw and cooked, than he might find pleasant.

A publican convicted of selling unsound and unwholesome red wine was sentenced to drink a draft of the same stuff which he sold to the common people, the remainder being poured on his head, and compelled to forswear the calling of a vintner in the city of London forever unless he could obtain the favor of the king. A note on the record states that he was readmitted five years later.

About the same time we find a woman charged with selling ale in a short measure quart pot, the bottom of which she had thickened with pitch and covered with rosemary to look like bush in the sight of her customers. It was a common practice to put some sort of evergreen leaves in the bottom of tankards; hence the proverb "Good wine needs no bush." Her sentence was to stand in the "thew," or female pillory, with half of the pot attached to it. As far as possible the cause of the offense was always exhibited along with the person punished.

Severe punishment was meted out for endeavoring to raise the standard market price of corn and other articles. In 1347 a merchant was imprisoned for forty days for enhancing the price of his own property. He secretly employed a man to bring certain of his own (the merchant's) wheat to the market, whereupon he bought his own at twopence more per bushel than the market price, of course taking care to make the same well known, forgetting, however, to state what he knew about the seller.—London Mail.

**No Training of Snakes.**

One cannot train or teach snakes to do anything whatever. Their brain power is so limited that the marvel is how they have ever managed to survive in the great competition, especially when one finds that they are still on the "ascending curve" of evolution. Most of them can be tamed to some extent by constant human companionship and judicious handling (some species very much more readily than others). When they have learned to trust, to appreciate the fact that there is no necessity for self defense, then they may be trusted, a principle which applies to most animals, and there the scope and possibility of their education come to an end.

After that the most that a skillful exhibitor can do with them is to adapt himself and his actions to their movements, which by familiarity he can pretty nearly anticipate, so that these may appear purposive and intelligent. He may affect to listen to the serpent's counsels, or receive its kiss on his lips if its head inclines in an upward direction, or to lure it from one hand to the other, or to guide it to some given spot, should it by chance glide horizontally or downward, just as the Indian snake charmer takes deceptive advantage of the natural defiant attitude of the well nigh untamable cobra de capello.—Chambers' Journal.

**Binding a Bargain.**

In the book of Ruth a shoe is mentioned as being handed over to ratify a bargain, and the custom in a sense seems to have been repeated later, for in the year 1002 certain bishops were put into possession of their sees by receiving a glove. These may have been richly jeweled gloves, for such formed part of the episcopal habit, and when some abbots thought fit to array themselves in similar hand covering peculiar only to bishops they were forbidden their use by the council.

While petty thieves are hanged, people take off their hats to great ones.—Old German Proverb.

## DREW THEIR OWN WILLS.

**Eminent Legal Lights Who Did So and Blundered.**

Many celebrated men have neglected to settle their affairs. Ben Jonson, Dryden and Sir Isaac Newton all died intestate, Bacon insolvent, and the epigram on Butler's monument in Westminster abbey sufficiently explains why he and many others like him never made a will:

The poet's fate is here in emblem shown.
He asks for bread, and he receives a stone.

"Wills," said Lord Coke, "and the construction of them do more to perplex a man than any other, and to make a certain construction of them exceedeth jurisprudentium artium." An old proverb says that every man is either a fool or a physician at forty. Sir H. Halford happening one day to quote the saying to a circle of friends, Canning humorously inquired, "Sir Henry, mayn't he be both?" At any rate, experience teaches that lawyers who draw their own wills sometimes make great mistakes. Sir Samuel Romilly's will was improperly worded, Chief Baron Thompson's will became the subject of chancery proceedings, while the will of Bradley, the eminent conveyancer, was actually set aside by Lord Thurlow.—London Standard.

## FOREIGN ETIQUETTE.

**Some Things Harmless Here Would Be Bad Form Abroad.**

There are some points of foreign etiquette which are absolutely inexplicable to the British mind, and, indeed, it is very doubtful whether the nations to which they are peculiar can themselves offer any explanation. Why, for instance, is it bad form if you visit a Frenchman in his own room to lay your hat on the bed? The fact remains that it is universally considered the worst of manners.

Again, in Germany, if you are walking in the garden with a lady and it occurs to you to pick a flower for her acceptance, be careful to pluck also a leaf or two to make the nosegay complete. Failure to do so is an insult, for which you may possibly be called to account by her nearest male relative.

If you are unexpectedly asked to stay to a meal in an Englishman's house you would not think twice of using his hairbrushes nor he of lending them. But in Hungary such a thing is impossible. To ask for the loan of a hairbrush in a Hungarian house is an unspeakable barbarism, and if it were not known that you erred from sheer ignorance would bring down upon you a most insulting response or possibly a challenge.—London Mail.

## MARINE LEAPERS.

**The Tuna Is the Most Graceful of the Jumpers of the Sea.**

Many of the inhabitants of the sea are good jumpers and some have become famous. Among them should be mentioned the tarpon or silver king, a huge fish with scales that gleam like silver, which constitutes the famous game fish of Florida. The leaps of this beautiful creature are often astonishing. Several years ago a steamer was rushing down the St. Johns river. The captain was sitting on the fore deck, leaning against the pilot house, when suddenly there rose in the air a beautiful shining fish four feet in length. It came on like an arrow and landed in the lap of the captain as neatly as though it had been placed there.

In the Pacific waters the tuna, an ally of the horse mackerel, is noted for its leaps. Sometimes a school sweeps up the coast and the powerful fish, often weighing 800 pounds, are seen in the air in every direction. They are like an arrow, turn gracefully five or six feet in the air and come down, keeping the water for acres in a foam, and if not the greatest jumpers they are certainly the most graceful of the leapers of the sea.

**Monkey With Spectacles.**

In the Breslau Zoological garden there is a spider monkey which was operated upon for cataract and now wears glasses. For more than a year after it was received at the zoo it was very healthy and lively; then it became very quiet, ceased to play and crouched in a corner. It was examined and found to be suffering from cataract, so was immediately taken to the eye hospital and operated upon. In less than a month it was fitted with a pair of spectacles, which it wears with becoming gravity.

**Deadly.**

Two ladies got to quarreling about their respective ages. At last, to end the dispute, one of them said in a conciliatory tone of voice:

"Don't let us quarrel over the matter any more, dear. I, at least, have not heart to do it. I never knew who my mother was, for she deserted me when I was a baby, and who knows but that you may have been that heartless parent?"

**Getting Him Right.**

Father—Why, when I was your age I didn't have as much money in a month as you spend in a day. Son—Well, father, don't scold me about it. Why don't you talk to grandfather?
